

Selected Major State Sales Taxes

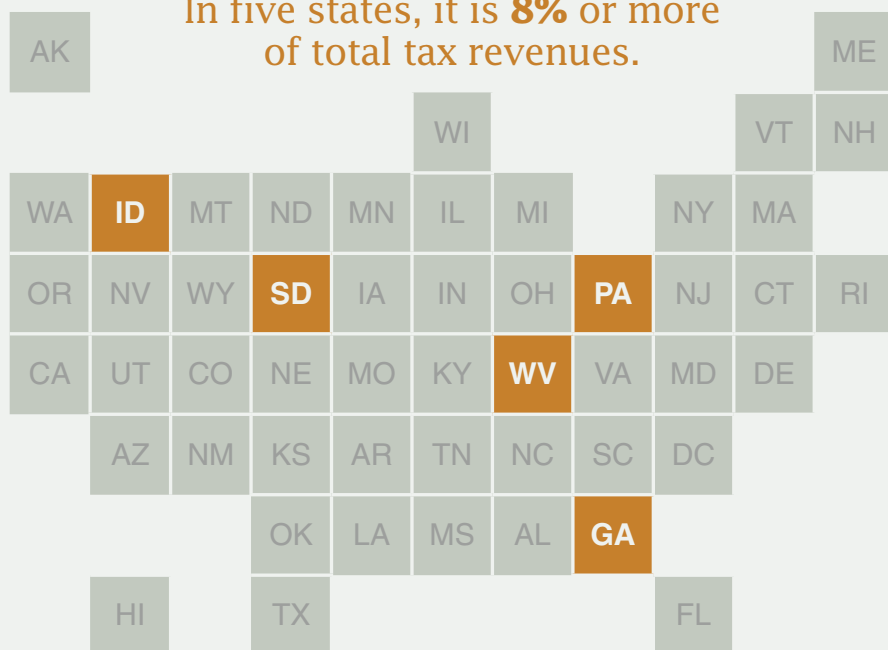

(Percentage of total state revenue: 2016)

April 18, 2017

While income taxes represent a large amount (42 percent) of total state taxes collected in the U.S. it is not as much as total sales tax collections (47 percent). General sales tax makes up the majority of total sales taxes collected in the U.S., however, the contribution of selective sales taxes varies by state.

Motor Fuels Sales Tax

In five states, it is **8%** or more of total tax revenues.

Insurance Premium Sales Tax

In four states, it is **5%** or more of total tax revenues.

Public Utilities Sales Tax

In five states, it is **4%** or more of total tax revenues.

Tobacco Products Sales Tax

In eight states, it is **4%** or more of total tax revenues.

Amusements Sales Tax

In seven states, it is **3%** or more of total tax revenues.

Alcoholic Beverage Sales Tax

In seven states, it is **2%** or more of total tax revenues.
